

FightAsthma Alert Protects Patients From Pollution

- Helps Me Avoid Pollution
- Reminds Me to Take My Medication

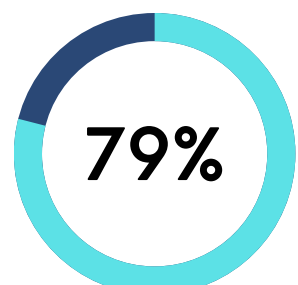

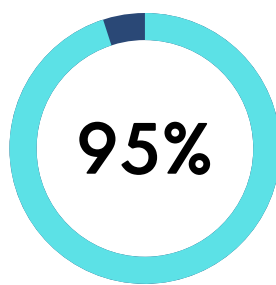

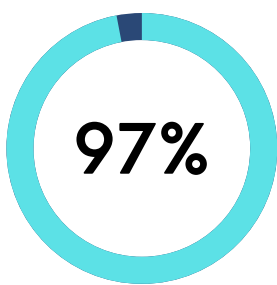

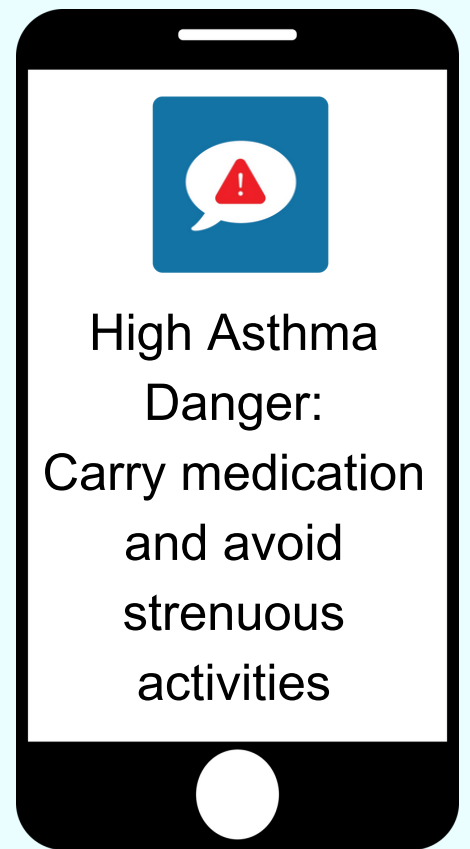

"Yes" survey responses from English, Spanish, Chinese-speaking asthma patients who use the FightAsthma Alert

"The text is my guardian angel - making sure I am protected"

"I felt empowered to prevent an emergency"

"It's a wake-up reminder when you're in a hurry and forget to take your medication"

<https://fightasthma.info>

Improves Symptom Awareness

"The Text informed me to make choices to protect my health."

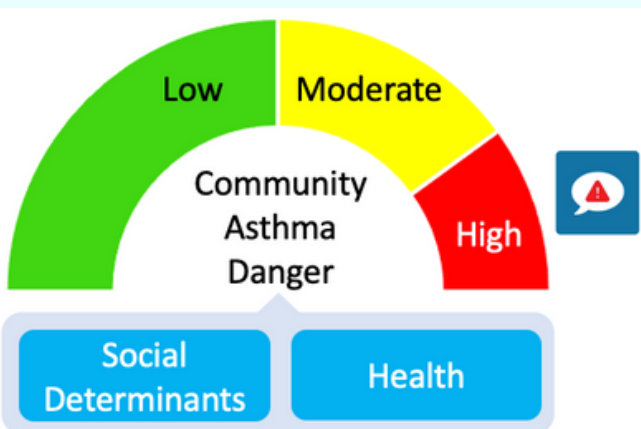

Reduce Indoor Triggers

"I don't use bleach to clean the house when we receive the Text."

Increase Doctor Communication

"My doctor congratulated me for protecting myself when I told him about the Text."

Our Partners

The FightAsthma Alert is an easy to use and accessible multilingual phone-text that empowers asthma patients and their families to prevent respiratory emergencies. Powered by artificial intelligence, the Text alerts recipients in real-time when there is high asthma danger to carry medication and avoid pollution exposure. The Text also provides healthy breathing tips to improve self-management.
